General Foch is Now Master of Situation on the Western Front

SERIOUS FOOD RIOTS OCCUR IN LEMBERG

Zurich, June 14.—Serious food riots occurred in Lemberg last Saturday, it was learned today. Mobs plundered shops and military lorries loaded with supplies, bound for the Italian front. The police were powerless and troops were called out. Numerous arrests were made. The authorities asked for 5,000 additional troops.

A report was received today that the Austrians have executed N. Podtolski, president of the People's Commissaries of the Don Republic. Martial law had been proclaimed in Rostov, it was said.

Thirty peasants were killed in a battle between peasants and Austrians in the Jampoul district. The Austrians have occupied several villages.

NUMBER OF U-BOAT VICTIMS DECREASE

Paris, June 14.—A notable "decrease" in the number of submarine sinkings in the western and central regions and the English channel has been evident since the blocking of Zeebrugge and Ostend harbors, it was semi-officially announced today.

DUTCH FISHERMEN TRY TO LYNCH HUN INTERNED AIRMEN

Ymuden, Holland, June 14.—A mob of Dutch fishermen attacked a hotel in which German airmen were interned, as the result of a submarine shelling the life boats of a Dutch lugger, which was sunk without warning Sunday. The Huns were saved by the police.

"While we were fishing Sunday a German submarine appeared and fired us without warning," declared the captain of the lugger Helena.

"The firing was kept up while we were lowering the boats and rowing away. A shell killed three of the crew and stove a big hole in a boat. We plugged the hole with clothing and kept it afloat. The submarine paid no attention to our plight."

The sailors made land after rowing for 12 hours. The sight of the boats aroused the indignation of the fishermen in the town who tried to lynch the interned airmen in retaliation.

FIRE FOLLOWING EXPLOSION BURNS A GRAIN ELEVATOR

Indianapolis, June 14.—Fire following an explosion today destroyed the Cleveland Grain company's elevator, at Beach Grove and about 100,000 bushels of corn and oats. Police stated that the explosion was caused by "something else besides dust." The flames, when first discovered, broke with explosive force through the top of the building. Pro-Germans are suspected.

CHIEF OF AIRPLANE PRODUCTION VISITS THE DAYTON PLANTS

Dayton, O., June 14.—"Dayton excels all other cities of the country in the production of the warplane proper," said John D. Ryan, chief of the airplane production department of the United States war forces, while here yesterday was inspecting the local airplane operations.

While Mr. Ryan gave Detroit credit with being in the lead in the production of the airplane engine, he explained that this did not affect Dayton manufacturers, as the engine is not being made in the local plants.

"I have seen some very gratifying things," continued the distinguished head of the aviation production department. "Really wonderful work is being done here, considering the brief time during which the warplane manufacturing industry has been in operation on an extensive basis."

Mr. Ryan said that the greatest obstacle now being encountered in air craft production is the inadequacy of the timber output.

"We are conducting the greatest lumbering operations in the history of the world," he said. "However, because of the fact that the Government is hinged about by legal restrictions, it cannot proceed with business transactions as it might otherwise do in war times. The safeguards and restrictions which the law throws about all commercial and industrial transactions are, in this instance handicaps that cannot be well avoided."

Mr. Ryan said that because of the Federal regulations that must be observed, which tend to curtail production, he had asked Congress to permit the organization of a lumbering corporation within the airplane production department.

THIS SHOWS SPIRIT OF CO-OPERATION

Paris, June 14.—An American general placed a battalion of American troops at the disposal of a French colonel when latter expressed a fear for the safety of his left wing during the French retirement from the Aisne it became known today.

The offer was made when the General visited the Colonel in the line through Gandelu, Bussaires, Corcy and Belleau.

The region described in the dispatch is the same area northwest of Chateau-Thierry where American marines and other American units have been fighting for the past two weeks.

INSTRUCTIONS ISSUED TO SPANISH SHIPS.

Madrid, June 14.—The Spanish ambassador to the U. S. has been authorized to instruct Spanish ships in American waters to transport to Spain such goods as are authorized by the American government, it was announced today.

..FRENCH AVIATORS KILLED..

London, June 14.—Captain Pierson and Lieut. Rousseau, French aviators, flying from France to Hounslow, Eng., were killed when their machine collapsed within two hundred yards of the landing station, it was announced today.

GERMAN GUNNERS SHELL AND TAKE THIS VILLAGE, BUT ITALIAN TROOPS DRIVE THEM BACK, RETAKE IT

Ruins of shelled Italian town.

This Italian official photo shows the remains of a beautiful Italian town on the Piave after a heavy artillery duel in which the Italians were driven out of the village and then recaptured it.

FOOD SITUATION IN AUSTRIA GROWING MORE SERIOUS DAILY

Stockholm, June 14.—The growing seriousness of the food and political situation in Austria-Hungary was revealed to me today by an Austrian newspaper man, the staff correspondent of the Vienna Arbeiter Zeitung.

"The situation in Austria-Hungary is again very serious," he said. "The food situation is always worse than it is in Germany. The Austrian government under pressure of the January strikes, gave the workmen many food promises. None of these was fulfilled. They were given expectation of food from Ukraine which, in view of the increasing revolts against the central empires and Skoropadsky, is now more than problematic. Germany is relying so little on this that she has reduced the daily bread ration

from 200 to 160 grams (half an ounce)."

"The price of flour in Austria is now 14 francs a kilogram (about \$1.40 a pound). Butter is forty francs a kilogram (about \$4 a pound). Vienna's population is not getting even thirty-five per cent of its normal rations. The mayor recently demanded that the government act immediately to prevent the most serious consequences."

"The political situation is likewise critical, as a result of publication of Emperor Karl's letters. The meeting of the Reichsrath (congress) has been postponed indefinitely. The movement of the Serbian troops and Slovaks for secession from Austria and unification in a single Serb nation is growing rapidly."

FORD CANDIDATE FOR U. S. SENATOR

Washington, June 14.—Henry Ford has decided to accept the Democratic nomination for senator from Michigan after being urged to do so by President Wilson.

Mr. Ford issued this statement: "At President Wilson's request, I have decided to accept the nomination for senator for Michigan if tendered to me. Realizing that there are exceptional opportunities for service to our people during the present and coming readjustment, I am ready and willing to do everything I possibly can to assist our president in this great work. Every man must expect to make great future sacrifices and be prepared to serve wherever the greatest need exists."

MANY OHIO BOYS APPEAR ON DAILY CASUALTY LIST

Washington, June 14.—The war department today issued a casualty list totalling 119 names, divided as follows:

Twenty-nine killed in action; five dead of wounds; six dead of disease; three dead of accident; seventy wounded severely; one wounded (degree undetermined); five missing in action.

Eight Ohio boys were named on the casualty list issued today by General Pershing one of these martyrs on the altar of freedom, being a South Charleston boy. Corporal Leigh E. Buster, is the lad from South Charleston and he is mentioned as being among those severely wounded.

Today's list of Ohio boys follows:

Died of Wounds:
John A. Stange, 917 West Town street, Columbus.

Died of disease:
Private Wade Holden, Jefferson, O.

Died of Accident:
Private Charles H. McCarthy, Tiffin, Ohio.

Among those severely wounded:
Corporal Leigh E. Buster, South Charleston, O.
Privates Leon Blosser, Columbus Grove, O.
Robert Cathcart, 527 Gordon St., Piqua, O.
Homer Jones, London.
Jack Srock, 101 E. Front St. Youngstown, O.

AUSTRIAN PREMIER OFFERS RESIGNATION

Amsterdam, June 14.—Premier Von Seydler, in an audience with Emperor postponed action until he could consult parliamentary leaders.

MEN BETWEEN 18 AND 50 WILL HAVE TO WORK OR FIGHT

Washington, June 14.—President Wilson's endorsement of Maryland's "work or fight" law, for males between 18 and 50 was regarded today as auguring the attitude of the administration on draft legislation expected in the next congress.

While Secretary of War Baker has officially stated he has not now contemplating recommendations for increasing draft age limits excepted by congressional leaders at the next session. President Wilson in a letter to Gov. Harrington of Maryland, expresses the hope that all states adopt legislation which will force men between the age of 18 and 50 to engage in useful pursuits—or fight.

Universal application of such a program, however, can only come through national legislation, it is contended here by members of congress. The great drain on the country's man power, it is declared will soon necessitate additional draft legislation raising the present age limits of those subject to call.

Rep. Kahn of the house military committee today reiterated his belief that the draft law should be modified to include men between the ages of 21 and 45 years.

Washington, June 14.—Sixty two more marines were placed on the country's honor roll today, as a result of recent fighting in France. Today's casualty list includes 8 killed in action, 6 dead of wounds, 48 wounded.

COOK DON'S MASK FOR ONION DRIVE

It's the onion's turn to weep now. For its only weapon, the tear-bringing fumes, is rendered useless against the cooks in the U. S. army cantonnements. For the cooks have conceived the brilliant idea of donning their gas masks while attacking a pan full of the onions in preparing dinner.

VON HINDENBURG STANDS BAFFLED NEAR COMPIEGNE

By J. W. T. Mason.

New York, June 14.—General Foch has inflicted on Von Hindenburg the most serious defeat of the year. The German general staff has checked Hindenburg's infuriated sacrifice of German man power for futile territorial gains and the fourth phase of the German offensive has come today to a stop.

The small areas sold to the enemy for so heavy a price in blood do not improve Hindenburg's position to any serious extent. Nothing has passed into German possession that is not well worth the death toll exacted in advance.

Hindenburg stands baffled north of Compiene. No explanation can conceal from the Germans, at home the fact that Compiene was the principal objective of Hindenburg's fourth offensive and that Compiene still remains in General Foch's hands. The weakness of the latest German drive cannot fail doubly to impress the Ger-

man populace, coming at a time when the German government no longer is able to conceal the fact that hundreds of thousands of American soldiers are already in France.

If Hindenburg does not attempt a fifth offensive the Central Empires will again become seriously restive under their military dictatorship. But every rule of prudence and high strategy calls for the conservation of the German reserves in the face of America's forth-coming major offensive.

Hindenburg has made the most gigantic sacrifices in military history during the past 12 weeks to win the war and has failed. By no possibility can he continue this bloody slaughter of his own men much longer.

General Foch is the master of the situation as it stands today. General Foch's strategy of saving the Americans for a later offensive has been indicated. The allies may well be optimistic.

London, June 14.—Blocked in the center the Germans yesterday attacked on the extreme wings of the present battle front, which includes all the Oise theater and the northwestern portion of the Marne area. A powerful enemy counter attack on the two mile front between Courcelles and Montdidier was stopped before the Germans reached the French positions, the French war office reported.

On the Aisne and the Villers-Cotterets forest the Germans gained slightly at some points but their attacks died down at night.

The greater portion of the battle front between the Oise and the Aisne

was "calm" according to the Paris night communique. There was spirited air fighting on the eastern portion of the Marne front at Champlet and Roie.

The Berlin war office announced that repeated enemy attacks northwest of Chateau Thierry (where Americans are engaged) broke down with heavy losses.

The French counter-attack which threw the Germans back across the Matz was declared by Berlin to have broken down with the heaviest losses.

The enemy claimed a total of 15,000 prisoners in the New drive with 100 captured cannons.

Paris, June 14.—Fighting on the entire New Oise-Marne battle front has simmered down to local actions, the French war office reported today.

A German attack failed in the center of the Oise area. There was active cannonading on the twenty mile front between Villers-Cotterets forest and Chateau-Thierry. Elsewhere only raiding operations were reported.

"Only local actions occurred last night north of Grivesnes (four mile northwest of Montdidier)" the communique said.

"A French raid in the Courcelles region resulted in the capture of thirty prisoners."

"At the Ferme Des Loges, the French progressed."

"A German attack failed in the Antheuil sector."

"Between Villers-Cotterets forest and Chateau-Thierry there was active artillery fighting."

"French patrols took prisoners at Bussaires, west of Rheims and in the Champagne region."

WORLDWIDE SUFFRAGE FOR WOMEN IS ENDORSED BY PRESIDENT WILSON

Washington, June 14.—President Wilson yesterday took leadership in a movement for worldwide suffrage.

In a striking response to a memorial from the French Union of Woman Suffrage, endorsed by the suffrage organizations of Great Britain, Belgium, Italy and Portugal, he went on record that equal franchise rights for women shall be established definitely among all nations as a principal achievement in the winning of permanent peace.

His message, transmitted through Mrs. Carrie Chapman Catt, President of the International Woman Suffrage Alliance, follows:

"I have read your message with the deepest interest, and I welcome the opportunity to say that I agree, without reservation, that the full and sincere democratic reconstruction of the world, for which we are striving and which we are determined to bring about at any cost, will not have been completely or adequately attained until women are admitted to the suffrage, and that only by that action can the nations of the world realize for the benefit of future generations the full ideal force of opinion or the full humane forces of action."

"The services of women during this supreme crisis of the world's history have been of the most signal usefulness and distinction. The war could not have been fought without them, or its sacrifices endured. It is high time that some part of our debt of gratitude to them should be acknowledged and paid, and the only acknowledgment they ask is their admission to the suffrage. Can we justly refuse it?"

"As for America it is my earnest hope that the Senate of the United States will give an unmistakable answer to this question by passing the suffrage amendment to our Federal constitution before the end of this session."

"Cordially and sincerely yours,"

"WOODROW WILSON."

TWENTY-ONE HUN PLANES SHOT DOWN

London, June 14.—Twenty-one German airplanes and a balloon were destroyed and four enemy machines were driven down out of control in day and night fighting by British airmen Wednesday and Thursday, the war office announced today. Four British planes are missing. Several tons of bombs were dropped on enemy objectives.

NEW DANGER ZONE

Amsterdam, June 15.—The German admiralty intends to declare the east coast of the United States from Mexico to Canada a "danger zone," and will warn all neutral shipping, according to reports received from Berlin, today.

THESE MEN, SUBMARINE VICTIMS, ROW FOR LIVES IN LEAKING BOATS AND REACH SHORE IN SAFETY

Survivors from steamship Texel, sunk by German submarine.

These men are survivors of the U. S. steamship Texel, sunk off the Atlantic coast by a German submarine in the raid on U. S. shipping. They arrived at an Atlantic port recently in two leaky boats. They were forced to row all the way and bail out the boats constantly. From left to right the men are: J. O'Connor, E. Evanderson, Arthur Ferrow, Otto Olsson, P. Huston, Martin Levanson, Hutchinson and Schrems.

Ladies' White Canvas Shoes, from \$2.00 up, at Sanz Shoe Store. adv

Mr. and Mrs. Fred B. Zartman (Mary Mowrer) returned yesterday evening from their honeymoon trip on the Great Lakes. They will be the guests of Mrs. Zartman's mother, Mrs. I. S. Mowrer, for a few days, before going to their new home in Franklin.

Over in England they are selling bones at the rate of 5 pounds per shilling. There is a serious shortage of meat.

Here in America bones, even fats and precious scraps of meat, are going into the garbage pail.

American housewives are learning to use substitutes, but they have yet to learn more about thrift, and elimination of waste.

As a conservation measure the Food Administration is conducting a garbage utilization campaign in Ohio to reclaim thousands of dollars' worth of material now being wasted. The object is to convert the garbage into nitroglycerin for use in making shells and soap, where there are garbage reduction plants, or to use it for bog food where such plants are not available.

Housewives can assist in this campaign by keeping their garbage pail free from tin cans and rubbish.

On Thursday evening the Good Samaritan class of the Friends' Church held its regular business and social meeting at the Church. After a short and interesting session, the meeting adjourned to the parsonage, without the formality of notifying Mr. and Mrs. Biddlecum of their coming. The surprise was complete. Some other members of the Church were also present at the surprise, which was in the nature of a celebration of the wedding anniversary of the pastor and his wife. After a most delightful evening, ice cream and cake were served.

Miss Rosella Harner, daughter of Mr. and Mrs. James Harner of the upper Bellbrook pike, entertained her class mates of the eighth grade, Junior High School, at a picnic at her home, Thursday afternoon. A delicious picnic supper was served the guests in the evening. Mrs. Frank Dean of the faculty of McKinley Junior High School chaperoned the party.

First Class Private Harold B. Fetz, member of a depot company at Camp Sherman, was called home, Friday, by the serious illness of his wife, who is suffering from ptomaine poisoning. Mrs. Fetz's condition is serious.

STARS AND STRIPES ARE RAISED OVER XENIA ROUND HOUSE

A flag raising over the round house of the Pennsylvania railroad in this city at 6:30 Friday evening, promises to be one of the most interesting events of flag day in this vicinity.

In raising the flag railroad employees will carry out the program suggested by the bureau of education of the Department of the Interior, and they consider themselves fortunate in being able to secure the bugle staff and band from O. S. and S. O. Home, to take part in the exercises. The program to be carried out will be as follows: bugle call, flag raising, salute to the flag, and pledge of allegiance, and recitation in Unison of the American Creed.

This will be followed by an address by Judge H. L. Smith, and the singing of America by the company. Dr. W. H. Galloway will act as chairman.

A general invitation is extended to the public to be present at this interesting ceremony. Flag raising will take place at important points all along the Pennsylvania lines today.

Children Understood Nature. A few years ago, Switzerland followed the new idea of other countries that nature study should be a regular study in the school program, and that teachers should be trained accordingly. It was soon discovered that the pupils knew more than the trained teachers, for the teachers' information was too often based on books alone, while the children knew nature from actual contact with her in all her moods.

Protection for Carrier Pigeons. Carrier pigeons in China are protected from birds of prey by an apparatus consisting of bamboo tubes fastened to the birds' bodies. As the pigeon flies, the air passing through the tubes produces a shrill whistling sound, which keeps the birds of prey at a distance.

Mrs. Chester Chism and Mrs. Adamson entertained at the home of Mrs. Chism on Orient Hill, in honor of the members of Miss Henrietta Logan's Sunday School class from Trinity Church, Thursday evening. A very delightful evening was spent.

Mr. and Mrs. Howard Bechtell (Florence Wright) are announcing the birth of a nine pound son. The little one has been named George Robert.

Little business of importance, occupied the attention of the City Commissioners at their regular meeting, held Thursday night. An assessment ordinance for street cleaning, sprinkling and sweeping was read for the first time. Other business of a routine nature was disposed of by the commissioners, who adjourned at an early hour.

Rabbit Skins Useful.

Millions of rabbits are killed annually in the British isles and in Australia for their skins, or, rather, for their fur, which is used in making felt hats. Great quantities of the English rabbit skins are sent to hat manufacturers in the United States, but first they go to the continent of Europe to have the long, useless hairs laboriously pulled out by cheap hand labor. Satisfactory machines to do this work are, it appears, lacking. After the skins reach America the close hair, or fur, is shaved off to be made into felt.

Stoical Eskimos.

The Eskimos have no fear of death. If told that death is approaching they will respond with a complacent smile. They are even more stoical than the Mongolian. Trouble does not affect them at all. They are a very happy people. Their natures are childlike, and they do not continue in the same frame of mind for two minutes at a time. They are good-natured and humorous, and very inquisitive. Their emotions are sudden and short-lived—uproariously happy one moment and almost crying the next. Their faces are now wreathed in smiles, now a picture of woe.—Christian Herald

Right and Wrong Idea of Power.

There are those who, the moment they enter a room, have the effect of dimming and giving the atmosphere a chill. Some of them act as if they took pride in this faculty. They regard it as an expression of power, which it really is, but a deplorable kind of power, harmful to those who use it and to those it is used on. How much better is the power for turning up the light and imparting warmth to the atmosphere. Every one of us can relate ourselves to it and, with practice, secure a more and more ready control. It is worth struggling for. It increases with us. It brings rewards that have no alloy.

NOTICES

Copy for notices to appear in this column must be furnished before 10 a. m. of day of publication.

—The Home Guards of Trinity church will hold their regular meeting at the church Saturday afternoon at 2:30 o'clock. Let every member be present.

—Xenia Review, No 470, Ladies of the Maccabees, will hold their regular review Friday evening, June 14th, at 7:30. R. K.

—Children's Day services will be held at the Mt. Tabor Church, Sunday afternoon.

—A lawn fete will be given by the Loyal Sunday School class of Mt. Tabor on the school house lawn, on Tuesday evening, June 18th. Everybody invited.

—The regular meeting of the Junior Missionary Society of the First U. P. Church will be held Saturday at 2 p. m., in the Sabbath school room. Come, and hear more of the adventure of the two African boys. Junir Sec.

Wood Grapple Saves Work.

The handling of logs by means of a crane equipped with a good grapple is not only more spectacular than the old method, but it effects an immense saving in labor and has made it possible to pile logs to a great height. Similar outfits are used in handling ties, posts, pulp wood, etc. The grapple is made like a clamshell bucket, except that the scoops are replaced by curved steel tines, in the grasp of which a large number of logs can be held at once.—Popular Mechanics Magazine.

Dressing for Dinner.

The custom of dressing for dinner was handed down to us from the Romans, who put on a loose robe of light texture, and generally white, before going to the most important meal of the day. Instances occur where it was kept in readiness for guests who came from a distance and had had no opportunity of dressing before arrival.

Will They Say "Next?"

The Manchurian barbers are likely soon to blossom forth as full-fledged, "tonsorial artists." Consular reports say they are replacing their antiquated and time-honored Chinese equipment with modern American barber supplies.

Your Liver Is the Best Beauty Doctor

A dull, yellow, lifeless skin, or pimples and eruptions, are twin brothers to constipation. Bile, nature's own laxative, is getting into your blood instead of passing out of your system as it should. This is the treatment, in successful use for 50 years—one pill daily (more only when necessary).

THE WOMAN WHO CHANGED

By JANE PHELPS.

THE REACTION. CHAPTER CXII.

I scarcely spoke again that evening, and George did not, except when I asked a question. I was discouraged, depressed. I knew I had not been tactful. I had impulsively arraigned him instead of telling him quietly how I suffered from his non-appreciation of my efforts to please him. The reaction of the day's excitement was telling on me. I felt a morbid pleasure in assuring myself I had lost them both; that I had dismissed Merton, and had not won anything by doing it.

"What was the use of trying to be good and do right?" I said to myself as after an hour I bade George good night and went up stairs. I wanted to be alone. The regular turning of the leaves of the magazine had irritated me. My nerves were on edge. As I look back I feel that it was wonderful that I could have attempted to talk, to reason with George after the strain of the night before and of the interview with Merton. But then I could not reason; I could only suffer.

I went immediately to bed, and instantly fell asleep.

The next morning George said laughingly:

"What had you been eating? You sored like a pirate last night. I woke you several times, rather tried to, but you went right on snoring." "Oh, I hope I didn't disturb you!" I said mortified, and blushed hotly. "Who's got a better right?" he returned, tweaking my ear.

I She Could Only Understand. I was frankly surprised at his good nature. I must have kept him awake; he had been cross with me the night before. Would I ever know him, ever understand his different moods?

At breakfast he was very pleasant; almost jolly. He teased me unmercifully about snoring; said he was going to bring home a pincher for my nose, and a lot of other nonsense. When he was ready to go he said:

"Come down town and have lunch with me if you like. I shall not be very busy today."

"That will be a treat," I said quietly. Just in time I remembered Mrs. Sexton's advice about being meek, to meek. Usually I had gushed over such an invitation; and thanked him fulsomely as if it were no pleasure at all to him; that the joy was mine.

"It will for me also," he had said, then kissed me as carelessly as usual. I danced about the house all the morning. I laughed and talked with Cleste while she helped me dress, telling her to make me lovely.

I was a little early at the restaurant, so waited in the lobby for George. While I waited, Mr. Carpenter, whom I had met the first time I dined there, came in, and seeing me alone came directly up to me.

"Are you lunching here?" he asked.

"Yes. I am waiting for Mr. Howard."

"Just my luck. Every attractive woman I know is always waiting for some other man," he returned. The words meant nothing, but the tone, and the look that accompanied them made me blush. He had just left me when George came in.

"What are you blushing for?" he asked.

"That Mr. Carpenter was just talking with me," and I repeated what he had said.

George Shows a Flash of Jealousy. "That fool!" George said under his breath, then "he better not poach on my preserves," he took my arm and we went in to the table he had reserved by telephone.

I was so happy I could have laughed aloud. George had really shown a little jealousy. He was not really angry; it was more the petulant expression of a jealous lover. I was sure now that I would have a pleasant lunch hour; and strange as it may seem the little incidents helped me feel that I had done exactly right in dismissing Merton Gray. That such a momentous action should even in my thoughts hang upon such a trivial incident was ridiculous of course; but in my mood at that time nothing seemed too small to be a consequence as it affected George and me.

After luncheon, which had passed off almost gaily, George had another surprise for me.

"I have to go over to Leonard Park," a town very near us—"I thought perhaps you would enjoy the ride; so told James to meet us here with the touring car."

Again I thought of Mrs. Sexton. I would not show too much enthusiasm. Yet knowing how he disliked a lone ride in an open car I knew he had ordered the touring car to please me.

"I shall enjoy the ride. It will do you good also. You looked a bit faded when you came in to lunch."

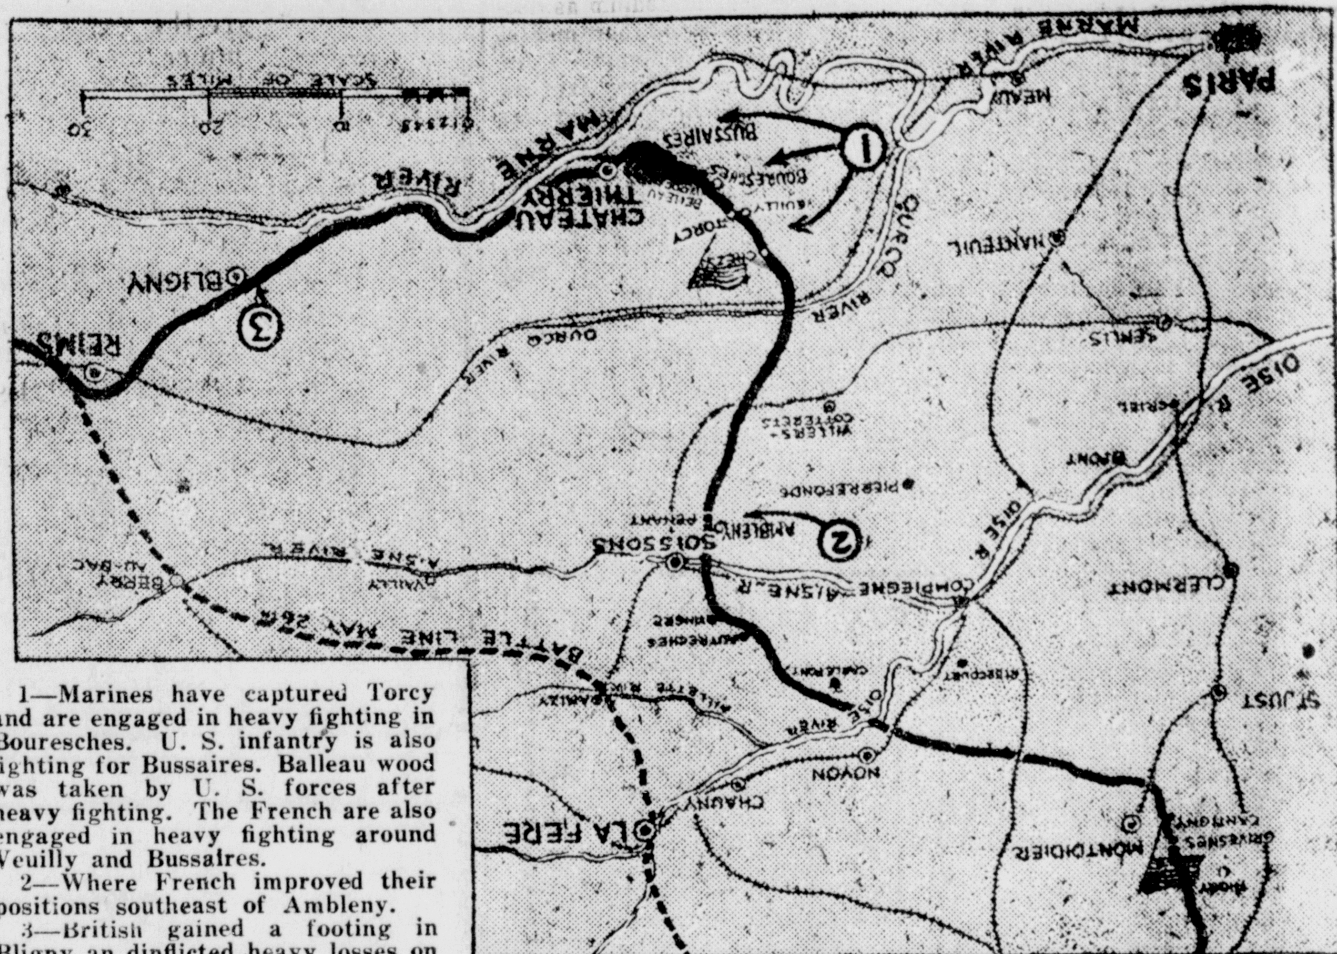

"So you noticed it! I was tired out. One of the men in the office is sick. He didn't show up today, and

A representative showing of HART, SCHAFFNER & MARX SUITS, ranging in price from \$22.50 to \$45.00.

WHERE U. S. MARINES ARE MAKING HISTORY AT FRONT

1—Marines have captured Torcy and are engaged in heavy fighting in Bourbeshes. U. S. infantry is also fighting for Bussaires. Balleau wood was taken by U. S. forces after heavy fighting. The French are also engaged in heavy fighting around Veully and Bussaires.

2—Where French improved their positions southeast of Ambleny.

3—British gained a footing in Bligny an undictated heavy losses on the Germans.

things were a bit snarled in consequence. But I fell bully now. I was hungry," he then motioned Mr. Carpenter to come and have coffee with us. "He mustn't think I minded his speaking to you," so confirming my suspicions.

Tomorrow—An Unpleasant Ride.

MRS. HOUSEKEEPER:

Don't waste or burn garbage. It is valuable. ONE TON OF GARBAGE CONTAINS: Sufficient glycerine for the explosive charge of fourteen 75 millimeter shells. Sufficient "fatty acid" for the manufacture of 100 12-ounce cakes of soap. Sufficient fertilizer elements to grow eight bushels of wheat. A score of other materials valuable in munition making. IF USED AS HOG FEED WILL PRODUCE: One hundred pounds of good, firm, first quality pork. Can you afford to destroy the valuable products when your government needs them to help win the war?

THE UNITED STATES FOOD ADMINISTRATION URGES EVERY HOUSEWIFE:

To be watchful over what goes into the garbage pail; to put less in and take more out. But what MUST go in to the pail should be kept separated from other household refuse so that it can be utilized either for making munitions or for hog feed. Do not permit broken glass, crockery, phonograph needles or other foreign substances to get into the garbage pail. Remember, Garbage is Valuable, Keep it Clean!

Measured by Cubic Foot.

A cubic foot of water weighs 1,000 ounces; milk, 1,030 ounces; cider, 1,020 ounces; alcohol, 800 ounces; ice, 930 ounces; gold, 19,250 ounces; white oak, 830 ounces; poplar, 490 ounces; limestone, 2,950 ounces; wheat, 770 ounces; air, 1 ounce.

FROM OCEAN TO OCEAN

Women Praise Lydia E. Pinkham's Vegetable Compound for Health Restored.

In almost every neighborhood in America are women who have tried this standard remedy for female ills and know its worth.

Athol, Mass.—"Lydia E. Pinkham's Vegetable Compound has done me a world of good. I suffered from a weakness and a great deal of pain every month and nothing brought me any relief until I tried this famous medicine. I am a different woman since I took it and want others who suffer to know about it."—Mrs. ARTHUR LAWSON, 559 Cottage St., Athol, Mass.

San Francisco, Cal.—"I was in a very weak nervous condition, having suffered terribly from a female trouble for over five years. I had taken all kinds of medicine and had many different doctors and they all said I would have to be operated on, but Lydia E. Pinkham's Vegetable Compound cured me entirely and now I am a strong well woman."—Mrs. H. ROSSKAMP, 1447 Devisadero St., San Francisco, Cal.

For special advice in regard to such ailments write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its many years experience is at your service.

For Skin Soreness of infants and children you can find nothing that heals like **Sykes Comfort Powder**. Leading physicians and nurses have used and endorsed it for more than 25 years. 25c at the Vinal and other drug stores. The Comfort Powder Co., Boston, Mass.

Selling Money a Business in China.

In China dealing in money is a business, one of the flourishing industries of the country, says World Outlook. There are shops that deal in nothing else—money exchange shops. You will find one in nearly every twisting little street in every city, often merely little holes in the wall, where a skull-capped proprietor sits behind a brass railing with little piles of money on each side of him and swiftly fingers his counting board. Here you go shopping for money just as you do for white flannel suits, eggs, green jade and Canton silk—and you bargain just as long and just as hard in the oblique and devious ways of the Orient. A national currency system there is not. The coins, like the dialects, change as you go from city to city.

Helping Blind Chinese.

Missionaries from the Y. W. C. A. are assisting in the relief of the blind in China, but find it difficult to mitigate the evil because of the curious religious beliefs of the Chinese.

LEGAL NOTICE

Court of Common Pleas, Greene County, Ohio: Samantha Mayo, Plaintiff,

vs. Silas Mayo, Defendant. Silas Mayo is hereby notified that he is made a defendant in an action for divorce, filed by the said Samantha Mayo, the said suit being on the ground of extreme cruelty. LEGAL NOTICE

Anderson White and Florence White who reside at Des Moines, Iowa, Nannie Brooker and Peter Brooker who reside at Amherstburg, Canada, vs. Charles H. Whittle who resides at Rochester, N. Y. will take notice that Charles White did on the 6th day of June, 1918, file his petition in the court of Common Pleas, Greene County, Ohio, praying for partition of the following described real estate: Situate in the County of Greene in the State of Ohio and in the City of Xenia, bounded and described as follows: Being part of a lot of land on West Second street, commencing at the S. E. corner of said lot; thence N. 10 1/2° W. 300 feet to a stone in the center of the Xenia and Hellbrook road; thence S. 79° W. 70 feet and 9 inches to a stake; thence S. 10 1/2° E. 300 feet to the South boundary line of said lot; thence N. 79° E. 70 feet and nine inches to the beginning, containing 49-100 of an acre. Said parties are required to answer said petition on or before the 10th day of August, A. D. 1918. CHARLES WHITE, Plaintiff. C. W. WHITMER, Attorney. 6-7,14,21,28; 7-5,12.

ENGAGEMENT OF SARA MOOREHEAD IS ANNOUNCED

Xenia friends of Miss Sara Moorehead, of Zanesville, who visits here often as the guest of her aunt, Mrs. William M. Wilson, are interested in the announcement of her engagement which was made in Zanesville yesterday. The following story of the manner in which the announcement was made is from a Zanesville paper:

"In a delightful way the announcement of the engagement of Miss Sara Moorehead to Rev. Harry H. Blocher, of the Forest Avenue Presbyterian church was made Wednesday afternoon."

"The Daughters of Dorcas had gathered at the home of Mrs. Ben H. McMasters, 372 Fairmont avenue, for their annual summer meeting while the members of the Terrace club met with Miss Margaret Hook on Ashland avenue."

"Miss Moorehead received with her sister, Mrs. McMasters, and after the guests had arrived the announcement was made by little Jean and Ruth McMasters."

"After receiving the good wishes of her friends Miss Moorehead went to the home of Miss Hook, where the Terrace girls were enjoying a social afternoon. While Miss Hook was seated at the piano her notes casually drifted into the Lohengrin wedding march. At the same time Mrs. Ivan Williams, a recent bride in the club, dressed in her wedding gown, entered the living room, carrying small flower baskets. These she presented to each girl present. Hidden among the flowers were tiny scrolls containing the happy announcement. Miss Moorehead received the hearty best wishes of the club girls. She is the daughter of Mr. and Mrs. T. L. Moorehead of Maple avenue, and Rev. Mr. Blocher came here from Dayton. The marriage will take place in the early fall."

What Impressed Him.

At the age of four Thomas was taken to interview the manager. When the party stopped before the lion's cage Thomas' sister informed him that this animal was called a lion. For a few moments Thomas was bewildered at the abundance of flowing hair the lion possessed, and then suddenly exclaimed: "Some mustache, believe me!"

All Traces of Scrofula Cleansed from the Blood

Impurities Promptly Wiped Out.

If there is any trace of Scrofula, or other impurities in your blood, you cannot enjoy the full physical development of a healthy body is capable of until your blood has been thoroughly cleansed and purified of all traces of impure matter. S. S. S., the wonderful old purely vegetable blood remedy, has no equal

for removing the last trace of Scrofula and other blood taints, and there is no case that it does not promptly reach. S. S. S. will thoroughly cleanse and remove every disease germ that infects the blood and give you new life and vigor. It is sold by all druggists and you should get a bottle and begin its use to-day. Write a complete history of your case, and you can obtain expert medical advice free by addressing Medical Director, 30 Swift Laboratory, Atlanta, Ga.

THE PRICE OF VICTORY AND THE COST OF DEFEAT.

No matter what it costs in money,
we shall find it cheaper to win, than
to lose the war.

The Germans are the most ruth-
less tax collectors on earth. They ex-
pect America to pay for the war.
Their newspapers talk of an indemn-
ity of twenty-five billions of dollars.
When they have the power the Prus-
sian autocrats have no difficulty in
collecting.

Brussels, after many fines and
taxes, was punished by a fine of 5,000,-
000 francs "on account of the at-
tack made upon a German soldier by
Ryckere, one of its police officials."

Luneville was fined 650,000 francs
because of an alleged attack by some
inhabitants.

Cardinal Mercier complains that
500,000,000 francs were imposed on
imprisoned Belgium by December of
the first year. In November, 1915, the
Prussians declared that the contribu-
tion be increased to 40,000,000 francs
per month from blood-white Belgium.
Later it was raised to 50,000,000 francs
monthly.

These instances may be increased
indefinitely. At last the Belgium
men were carried away into slavery.
Later this was done in Poland too.

It will be far cheaper to pay now
than to pay when Germany sets the
price.

ANOTHER OBJECT LESSON.

As a direct result of prohibition in
New Hampshire the superintendent
of one county house of correction an-
nounces that he hasn't enough sen-
tenced men in the workhouse to care
for the farms under his charge. So
few men have been consigned to the
institution of late that he must hire
outside help to get the work done.

Under license there were enough
prisoners to do all the work at the
county farms, with enough left over
to hire out to neighboring farms.

It's not a cheerful outlook, how-
ever. Sober, healthy, self-respecting
men are better workers than prison-
ers working out a sentence for drunk-
enness or crime. And a shortage of
labor at such an institution means an
addition to the labor supply of the
outside community.

There are numerous similar cases
in many other "dry" states or com-
munities. They furnish fine food for
thought for private citizens and state
legislatures still in doubt about the
federal prohibition amendment.

OHIO'S BIG COAL RESERVE.

The Buckeye State is still a large
storehouse of coal, despite the 700,-
000,000 tons that have been mined.

Those who are interested in obtain-
ing a general idea of the coal fields
and coal resources of the United
States will find interesting reading in
Professional Paper 100-B, which has
just been issued by the United States
Geological Survey, Department of the
Interior. This paper contains a de-
scription of the coal fields of Ohio, pre-
pared by J. A. Bownocker, state geo-
logist and a computation of the origi-
nal tonnage of coal in the state be-
fore mining began, by F. R. Clark. It
is the second part of a large report,
which is intended to treat of all the
coal fields of this country, exclusive
of Alaska. Ohio is one of the great
coal-producing States, standing fourth
in the list, with over 22,000,000 tons
to its credit in 1915, and also fourth
in order in the total number of tons pro-
duced since mining began. Since 1838
there have been mined in Ohio more
than 700,000,000 tons of coal. This
looks like an extremely large
amount, but at the present rate of
consumption, it would last the United
States only a little more than a year.

In Professional Paper 100-B Pro-
fessor Bownocker describes the beds
of coal that have produced this large
amount together with beds not yet
mined. Altogether the coal beds of
the state, according to the figures of
Mr. Clark, are capable of producing
probably 86,000,000,000 tons in the
future when the demand will be so
great that even impure coals and thin
beds will be worked.—Ohio Journal of
Commerce.

One Advantage.

The fellow who tells all he knows
has one good point—he will never do
anything wrong if he tells about it
beforehand.

YOUR FLAG AND MY FLAG

(By Wilbur D. Nesbit.)

Your flag and my flag.
And how it flies today
In your land and my land
And half a world away!
Rose-red and blood-red
The stripes forever gleam;
Snow-white and soul white—
The good forefathers' dream;
Sky-blue and true-blue, with stars to gleam aright—
The gloried guidon of the day, a shelter through the night.

Your flag and my flag!
And oh, how much it holds—
Your land and my land—
Secure within its folds!
Your heart and my heart;
Beat quicker at the sight;
Sun-kissed and wind-tossed—
Red and blue and white.
The one flag—the great flag—the flag for me and you—
Glorified all else beside—the red and white and blue!

WILLIAM ORBISON DOES STUNTS HIGH OVER CITY OF XENIA

Doing stunts in the air over the
place where he lived for some time,
was the trick of Lieutenant William
Orbison, of Wright Field, who per-
formed air feats over Xenia early on
Thursday morning.

Many Xenia people witnessed the
daring air feats of Lieutenant Orbi-
son, who seemed to be performing
for the edification of his watchers.
The machine was flying comparatively
low, and in the early morning sun
light made a pretty sight as it dipped
and turned through the clear
morning air.

Thursday afternoon, several ma-
chines alighted on the Howard Little
farm, near Xenia, and one of the
leather-helmeted pilots proved to be
Lieutenant Orbison, returned to his
former haunts by route of air. Con-
versing with the Lieutenant, Mr.
Little mentioned the daringness of
the early morning visit and Lieuten-
ant Orbison admitted that he was the
pilot of the machine.

The Lieutenant was in charge of
the machines which alighted with
him, and he remained on the ground
until the rest had made safe ascen-
sions. He is instructor at Wright
Field.

CHAUTAUQUA WILL BE HELD IN THIS CITY

A Chautauqua Association was or-
ganized to promote the annual chautau-
qua in this city at a meeting held
in the rooms of the Xenia Business
Men's Association Thursday night.
The Redpath Chautauqua will be held
in this city from July 24 to 30, ex-
tending from Wednesday to Tuesday.

The association was organized with
John Prugh, chairman, C. F. Ridenour,
secretary and Mrs. W. E. McGervey,
treasurer. An executive committee
was appointed as follows: C. W.
Adair, H. A. Higgins, Charles O'Brien,
John Beachem, Miss Emma Davidson
and Mrs. Mary Meredith.

C. H. Worth, a representative of
the Redpath Chautauqua, was present
at the meeting at which steps were
taken to promote the affair for this
year. The coming of the chautauqua
is assured by a guarantee of \$1,500,
signed by guarantors at last summer's
meeting. Plans will be effected at
once to promote the affair to a suc-
cessful climax.

What Safety Entails.

Some of the best judges are agreed
that industrial and other safety is
largely a matter of common sense.

ATTENDS DOCTORS MEET FOR BRITAIN

Surg. Col. H. A. Bruce.

Surg. Col. Herbert Alexander
Bruce, M. R., U. S. A. (England),
has recently arrived in the United
States as the British delegate to
the American Congress of Medical
Societies to be held in Chicago June
10-14. He will tell of conditions
existing in trenches on the battle-
fronts.

SERGEANT SHEPARD WRITES FROM FRANCE

The following are excerpts from a
letter received by relatives here of
Sergeant Homer A. Shepard in
France:

"I will try and write you a few
lines as I have some spare time and
it is Sunday and surely a pretty day.
I am feeling fine. How are the folks
and you?"

"We arrived safely, of course, you
know I can't tell you just when. A
good many of the boys were sea sick
and me too. Tell Dad it made me
think of different times when he used
to go out on the boats on the river.
We came over on quite a big one.
This is a pretty country. I mean the
natural scenery, but they don't have
high buildings as we do in the states.
I have lots to tell you when I get
a chance but you know I can't tell
you now for it wouldn't be the right
thing. The cause being for our safe-
ty. I expect you can understand."

Sergeant Homer A. Shepard, 319,
Field Signal Battalion, A. E. F.,
France.

EAST END NEWS

Misses Elsie Washington and Zer-
tha Merritt have gone to Oberlin,
O., where they attended the High
School commencement, George Wash-
ington Jr., formerly of this city, be-
ing one of the graduates.

Mrs. Mary C. Barton and Mrs.
Bertha Williams of Braddock, Pa.,
are guests at the home of Mrs.
Maria Stevens of East Second street.
W. H. Shields has bought Mrs. Le-
titia Lane's property on East Market
street, for \$500.

Most of the Xenia boys who have
been encamped at Camp Grant, Ill.,
embarked for France, last Friday.

Mrs. Calvin Thompson and little
daughter, Rachel, have gone to Spring-
field, O., where they will spend a
month or more.

Mrs. Eliza Euell has gone to Pat-
terson, N. J., to spend the summer.
Solicitors are out canvassing for a
new church in Xenia.

Mrs. Robert Johnson, who has been
visiting her old home in Macon, Ga.,
where she has been teaching school
for several months, has joined her
husband here.

Household of Ruth, No. 220, will
meet Friday evening, June 14, at 8
o'clock. Business of importance.
All inmates are requested to be pres-
ent. Lavada Mack, M. N. G., Mamie
I. Gaines, W. R.

Mrs. Rev. W. C. Allen and daughter,
Mary, are both sick and confined to
their beds.

Blind Harris gave an excellent
performance last night at the Third
Baptist Church, before a fair sized
audience.

Mrs. Letitia Lane, who has been
visiting Mrs. Victoria Lane and
daughter, Garretta, has returned to
her home in Columbus.

Fighting Fires.

The United States department of ag-
riculture pleads thus with those who
are endeavoring to put out a fire: "If
you find flames breaking out in your
house, don't just grab a pail of water
and discharge it blindly in the general
direction of the fire. The knack of
throwing a broad sheet of water in a
semicircular sweep is easily learned,
and is useful on a spread fire on the
floor. The water should be applied to
the base of the fire, and not to the
flames and smoke. Water dipped out
with the hands or a dipper or a broom
and sprinkled on the fire is often more
effective than that thrown on the fire
from a distance."—Magazine of Safety.

Soldier's Religion.

The soldier regards God as the intel-
ligence that marshals the moral forces
of all time, but as an intelligence, like
his general's, to be trusted, rather than
understood; and he regards a blind
and unquestioned obedience to this di-
rection as the individual's only possi-
ble contribution to the ultimate vic-
tory. His religion is, therefore, first,
absolute trust, and then, absolute sub-
mission. The immediacy of the fight-
er's need makes it easier for him to
attain these two conditions than for
us, whose incorporation of creed in
conduct is not so insistent a con-
straint; but the religion at the front
and at home has the same frank in-
tuitive character.—Winifred Kirkland,
in the Atlantic.

PHOTO OF ECLIPSE OF SUN IS TAKEN BY J. J. DOWNING

An interesting photograph of the
eclipse of the sun last Saturday, was
obtained by Photographer J. J. Down-
ing. The picture was taken from the
top of the Downing studio and the
camera caught the phenomenon when
the sun was behind the shadow at the
extreme part of the eclipse, when it
appeared like a slender crescent moon.

The lens caught what the naked eye
could not discern, and which is plainly
visible in the photograph. Three
mock suns one large and appearing
like a halo above the eclipse, another
just below it, and a third reflected in
the roof of the court house, which is
visible in the picture. Six rays are
also reflected out from either side of
the eclipsed sun.

MUSICAL SORORITY MEETS IN XENIA WITH MRS. BABB

Mrs. Karl Babb is entertaining for
two days an interesting group of
young women, members of the Delta
Omicon, a Greek letter musical so-
rinity, who are holding their annual
convention Thursday and Friday, at
the home of Mrs. Babb, their presi-
dent.

Twenty-eight members of the
Sorority are here for the conven-
tion, and the Babb home, where the
business meetings of the Sorority are
being held, is a scene of much anima-
tion. The convention is purely of a
business nature, the only feature with
a social cast being the musical, which
was given at the First Methodist
Church, Thursday afternoon at four-
thirty, when five very talented mem-
bers of the Sorority gave the pro-
gram. A number of Xenia people
had the pleasure of hearing this pro-
gram.

Mrs. Lorina Creamer McClure of
Columbus, Miss Ruth Bohlender of
Cincinnati and Miss Mary Miller of
Gahanna, Ohio, gave the vocal num-
bers, and the piano selections were by
Miss Rea Blundon of Detroit and
Miss Bess Hagemeier of Newark.

Miss Bohlender, who is a young girl
with a rich and lovely soprano voice,
gave two numbers, "The Rose's
Cup," by Ward-Steffans, and "O
Heart of Mine," by Caligh-Leigher.

Mrs. McClure sang "The Star," by
Rogers, and "Non So Pui Cose Son,"
from "The Marriage of Figaro," by
Mozart. Miss Miller sang "Rose
Dreamed She Was a Lily," "O Cessata
di Piagnini" by Scarlatti, and "An
Invitation," by Bunning.

Miss Blundon played a selection
from Schuman and one by McDowell.
Miss Hagemeier gave a selection from
Chopin.

Officers of the Sorority here be-
sides the president, Mrs. Babb, are:
Mrs. James McClure, Columbus, sec-
retary; Mrs. Mabel Metz, Newark,
treasurer, and Mrs. Bruce Brannis,
of Lynn, Ind., alumni president.

WILSON SUPPORTS WAR LABOR BOARD

Washington, June 14.—President
Wilson has come out flatly in support
of the national war labor board's
decision that the right of union or-
ganization in the big telegraph com-
panies of the country should be adhered to.

In a letter to Newcomb Carlton and
Clarence Mackey, heads of the West-
ern Union and Postal Telegraph com-
panies, he urged that they abide by
the decision of the war labor board in
its report on the threatened strike of
telegraphers. Mackay has wired his
acceptance of the principle involved
and the president expects to hear from
Carlton Monday.

Cement for Mending China Dishes.

Valuable china may be mended with
the following mixture, and when dry
it will resist hot water and ordinary
usage. Mix a teaspoonful of alum and
a tablespoonful of water. Place in a
hot oven until it is quite transparent.
Wash the broken pieces in hot water,
dry and put them into the oven until
they are warm; and while still warm
coat the broken edges with the mix-
ture thinly and quickly as it sticks in-
stantly.—Popular Science Monthly.

RHEUMATISM HAS LEFT HIM

Adolph Belke, 229 East Twelfth
street, Cincinnati, O., suffered from
severe rheumatic pains in his limbs.
He tried Tanlac Rheumatism Treat-
ment recently and it helped him so
much that he says he hasn't suffered
a pain for two weeks.

"I had sort of shooting rheumatic
pains in my limbs and they would
get a lot worse in damp weather,"
Mr. Belke said. "I got so I felt
bad most of the time and didn't take
any interest in anything."

"I read about Tanlac Rheumatism
Treatment, and although I didn't ex-
pect it to do me much good, I start-
ed taking it. It seemed to be just
what I needed. I felt better in just
a short time. I haven't suffered from
rheumatic pain for two weeks now
and I notice that my health generally
is improving. I think this new Tan-
lac Rheumatism Treatment is fine."

"If you suffer from rheumatism get
Tanlac Rheumatism Treatment today
at Sayre & Hemphill's."

Don't Feel Weak.

Weakness is dangerous to health.
Don't feel weak. If you are not feel-
ing right take Tanlac the famous sys-
tem tonic and get your system back
in shape. You can get it at Sayre
& Hemphill's.

MAN KILLED IN FRANCE THOUGHT TO BE KNOWN HERE

Ralph J. Carpenter of Athens, given in yesterday's casualty list as killed in France, is believed by several Xenians to be a youth of the same name who made his home about Xenia and Jamestown until less than a year ago. He is known to have enlisted in the medical corps from some point in the state, and to have gone to France.

Phillip LaBelle is very much interested in completing the identity of the man killed in France. Ralph J. Carpenter, the former Xenian, was about 18 years of age, and was employed in the local shoe factory, when Mr. LaBelle was a foreman there. He was an orphan with no fixed home. He was born and reared at Jamestown.

MIAMI TP. FARMERS HOLD A MEETING

An enthusiastic meeting for County Farm Bureau Branch organization purposes was held in Yellow Springs, Thursday night, west precinct of Miami township being organized. County Agent Ford S. Prince had charge of the meeting.

The following officers were elected: William Hardman, president; G. H. Fogg, vice president; E. K. Fogg, secretary and treasurer; R. J. Corry, business manager; William Hardman, director.

The following committee on members was appointed: A. W. Confer and J. P. Zell, Beehive district; Wendell Black, central district; L. D. Welsh, Hyde district; E. K. Fogg, Confer district; D. W. Brennan, Cedarville district.

All Founded on Love. All true morality, inward and outward, is com. rehended in love, for love is the foundation of all the commandments.—Meister Eckhart

Step Lively! Corns Quit With "Gets-It"

The Great Corn-Loosener of the Age. Never Fails. Painless.

Watch my step! What's the use? I go along "right side up" without care, even with corns, because I use "Gets-It," the painless, off-like-a-banana-peel corn remover. I tried other ways

Corns Simply Can't Stop, We use "Gets-It." I was blue in the face and red in the toes. No more for me. Use "Gets-It." It never fails. Touch any corn or callus with two drops of "Gets-It," and "Gets-It" does the rest. It's a relief to be able to stop cutting corns, making them bleed, wrapping them up like packages and using sticky tape and salves. It removes any corn, clean and clean, leaving the toe as smooth as your palm. You can wear those new shoes without pain, dance and be frisky on your feet. It's great to use "Gets-It."

"Gets-It" the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. Mfg. by E. Lawrence & Co., Chicago, Ill.

Sold in Xenia and recommended as world's best corn remedy by Sayre & Hemphill and D. D. Jones.

CANADIAN SOCIETY WOMEN SEND SPHAGNUM MOSS DRESSINGS

Do you know where there are any beds of Sphagnum Moss? If you do please report this information to the Red Cross Society. Dressings made of this moss are being used in every hospital and dressing station serving the Allied Armies.

As far back as the Napoleonic wars moss was used for this purpose, but not until 1915 did any large demand for it arise. In 1916 it was found that the supply of moss available in England was insufficient and an appeal was made to Canada. Canada answered that call as she has answered all others for help and supplies. Prof. Porter of McGill University, explored the bogs of eastern Nova Scotia in an endeavor to locate moss similar to the samples sent over from England. His hunt was rewarded by finding a grade of moss which the medical authorities pronounced "perfect" and the first

sphagnum moss dressing to be sent overseas was made from this moss in the fall of 1916 by the Junior Red Cross of Guysboro, Nova Scotia. To the late Harry James Smith, of New York, is due much credit for the progress of this work. At his own expense, he established a sphagnum organization at Arichat, N. S.; explored various localities on both the Atlantic and Pacific coasts for moss fields; collected, prepared and donated to the Red Cross great quantities of this moss. When the American Red Cross formed a sphagnum department it was placed under his control. Mr. Smith was killed in an automobile accident in British Columbia in March, while searching for moss for the Canadian Red Cross, and thus set the seal to a life of exceptional generosity and nobility.

The work of the McGill University Women's Union in maintaining a sphagnum department since 1916,

has been of inestimable value. Not only have moss and dressings been prepared in large quantities, but experiments have been carried on to test the value of various Canadian mosses. The Union was organized during the first weeks of the war from among the families of the Governors and staff of the University, and has been active ever since in providing "soldiers' comforts" for McGill graduates and students on active service. Some conception of the amount of work done by these women can be gleaned from the fact that McGill's quota numbers more than 2,200. The accompanying photographs show members of the Union working on moss in its various stages of preparation. Inquiries regarding this work may be addressed to Miss S. M. Bainbridge, Hon. Sec. Committee on Sphagnum Dressings, Canadian Red Cross, care McGill University, Montreal.

THREE INTERESTING CONTESTS PROMISED AT PRIMARY ELECTION

PRESENT OCCUPANT OF THE AUDITOR'S OFFICE SEEKS HIS FOURTH TERM—MUCH FUN EXPECTED BEFORE THE RACE IS OVER—FOUR CORNERED FIGHT ON SHERIFF.

Declarations of candidacy filed up to midnight Thursday by politically eager Greene countians. Indicate three interesting contests for county offices before the primary election which falls on August 13.

Most attractive of the county offices is that of sheriff, four candidates expressing their eagerness to take charge of the county's peace and quiet next January. Lincoln Funderburg, the big deputy in the office, who has helped Sheriff P. A. Jackson preserve the dignity of the county for the last four years, is a candidate "with the bells on." His declaration was filed with the Board of Elections several weeks ago. E. E. Lightner, Orient Hill grocer, who once before sought the honor of being the county's chief executive officer, is willing to make another try, and his petition is also on file. D. E. Crow, who is retiring from the superintendency of the city work house, thinks he would like the job of sheriff, and his petition is in the hands of J. K. Williamson, clerk of the election board. Cliff T. Lattimer, former big league baseball player, evidently believes that the training he acquired on the diamond would be fine in aiding in upholding of the county's dignity. He was the last candidate for the office of sheriff to place his declaration on file. With the four cornered fight for this office, it promises to be the most spectacular race of the primary. All the candidates are residents of the county seat.

Former City Engineer J. P. Shumaker sprung a surprise by appearing as a candidate for the office of county surveyor, his petition not being filed until late Thursday night. He will oppose Surveyor J. M. Fawcett, who is a candidate for his third term.

Two candidates will seek nomination to the office of Auditor. Ralph O. Wead, the popular and capable superintendent of the Miami township schools, and a former Xenia man, will oppose A. E. Faulkner, who is now serving his third consecutive term, and seeks in this election the nomination for his fourth term.

Congressman S. D. Fess will again be a candidate for election to the House of Representatives from the Seventh District which he now so ably represents. George H. Thorne, of Bellbrook, for a number of years a resident of Washington, D. C., is the Democratic candidate for this office. Frank Barrett, of Washington, C. H., will again seek to represent the 7-3 district in the state Senate. W. B. Bryson will have no opposition for election as State Representative. Other county candidates without op-

file are, Coroner, R. L. Haines; Prosecutor, Harry D. Smith; Treasurer, J. E. Sutton; Recorder, B. F. Thomas; Clerk of the Courts, George W. Sheets; Commissioners, R. D. Williamson, George N. Perrill and R. E. Corry.

Perpetual Paste.

Dissolve one teaspoonful of alum in one quart of water. When cold stir in as much flour as will give consistency of thick cream, being sure to beat up all the lumps. Stir in as much powdered resin as will cover a five cent piece and throw in six cloves to give a pleasant odor. Have on the fire one teacupful of boiling water; pour the flour mixture into it, stirring it well all the time; in a few minutes it will be the consistency of mush; pour into an earthen vessel; let it cool; put cover on and place in cool place. When needed for use take out a portion and soften with warm water. This will keep one year. It is better than gum, as it does not gloss the paper, which can be written on.

ABOUT ALL SHE KNEW

Her Father—Carrye, Mr. Shyboy has been calling on you regularly twice a week for the last year. Do you know what are his intentions?

ZIMMERMAN

Mr. Walter Reece and wife entertained Wednesday evening in honor of the Alpha Band. The following guests were present: Mr. and Mrs. Frank Green, Mr. Walter Sayers and family, and Mr. Overholser, all of Alpha; Rev. Earl Engle and wife, Rev. Lynn and family, of Dayton, Mr. and Mrs. Elmer Wetzel, Mr. Carl Bigger and family, Miss Laura Engle, of Dayton; Mr. and Mrs. Luther Snyder and Mr. and Mrs. Harry Haverstick and daughter Max, and members of the band. All enjoyed the music by the orchestra. Refreshments were served.

Horace Trehan, of Quartermaster's Department at Camp Sherman, spent Saturday night and Sunday with home folks.

Mr. Cowser, of Dayton, preached at this place Sunday morning.

Mr. Walter Sayers, of Alpha, will be the music teacher of Beaver Creek township schools the coming term.

Miss Ottilie Stewart is acting as book-keeper for the Alpha Seed and Grain Co., during Miss Jessie Maxwell's absence on a vacation.

RECEIVES S. O. S. CALL.

An Atlantic Port, June 14.—An American steamship arriving here today from a Cuban port reported that she received an S. O. S. call from a ship being attacked by a submarine on Tuesday. The call came from a point nearer shore than she was traveling. She carried over 100 passengers and was escorted to this port by destroyers and seaplanes.

Messrs. P. H. Flynn and Alex. Finley, members of a committee named by the Xenia Business Men's Association, went to Cincinnati, Friday morning, to be present at a meeting held at the Cincinnati Chamber of Commerce. The meeting was called by the Cincinnati Chamber of Commerce for the purpose of organizing a District War Industries Board. The purpose of the board is to mobilize and classify industrial plants, so that the government may have complete information that will render it comparatively easy to convert non-essentials to the manufacture of war materials, whenever the need arises. Representatives of all the Xenia factories were named on the committee, but only Mr. Flynn and Mr. Finley were able to attend the meeting.

Tales of John Redmond.

John Redmond, the late Irish leader, is said to have acquired his oratorical power by following a queer precept of his biographer, L. G. Redmond-Howard. In his school days John studied under Bell, a distinguished elocutionist. "Listen to all Bell has to say, John," advised Redmond-Howard, "but don't do anything he says. You do it better yourself." A good story is told by Elfred Weynell of John Redmond's literary efforts, which brought a modest five dollars a week. The late Lord Russell exclaimed: "You don't mean to say that that fellow took it?" "Better men have taken less," answered Weynell, and worse have taken more.

Ostriches Swift of Foot.

The competitive sports between individuals of the ostrich family are most interesting. With their powerful legs they are able to race as no other bird can. They are the race horses of the feathered kingdom. At an early age the young ostrich is taught to run races—a practice which prepares him for what he needs later in life in the way of self-protection through rapid pedestrianism. Many a race is run and honors won by young ostriches of the plains.

Xenia Man Has Thanksgiving Every Day

"Two years ago, after suffering many years with stomach trouble, I took a course of May's Wonderful Remedy and haven't been sick a day since. I can eat anything I want and have no pain at all. Three doctors had advised operation, but your remedy has cured me. Every day is thanksgiving day for me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sayre & Hemphill, adv.

Awaiting The Joyful Sound

The Wonderful Music that Bursts Forth When the Stork Arrives.

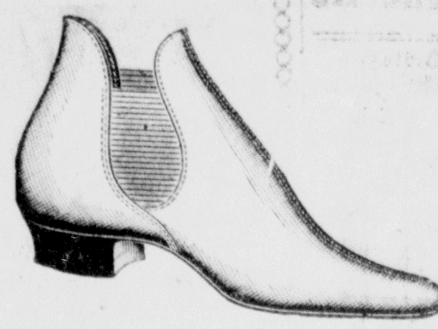

Who can forget that little baby cry that echoes the arrival of the new baby? Before baby comes the mother should get in condition to meet the crisis.

Thousands of women have used the safe and reliable application, Mother's Friend, during the waiting months, and they relate how they entirely escaped nausea, nervousness, bearing down and stretching pains and many other debilitating and disheartening experiences which so illy fit the mother for the greatest time in a woman's life.

Mother's Friend is a wonderful help to nature in relieving strain and distress brought about by expanding muscles. The nerves, too, will be calm, making the period one of cheerful days and restful nights. The breasts are kept in good condition and the abdominal muscles relax with ease when baby is born.

Mother's Friend makes it possible for the expectant mother herself to actually aid nature in the glorious work to be performed, and no woman should neglect or fail to give nature a helping hand. It will mean infinitely less pain at the crisis.

XENIA SOLDIERS AT CAMP TAKE UP BEDS AND WALK

How the Xenia boys at Camp Taylor moved their belongings from one part of the camp to their new location two miles away, and other incidents of the lives of the local soldiers at the Louisville cantonment, is described in selections from letters written by Private Fred W. O'Dea to his father, Mr. John O'Dea, and his sisters:

Camp Taylor, Ky., June 9.
"We moved here to Coates Station yesterday amid all kinds of confusion and scramble. We had to roll our two green blankets and our comforter up in our straw ticks which are about two by six feet in size, and in the middle of the whole shooting match pack our mess kits and our government clothing, which made a roll about two feet thick and three feet long. Then we had our suit cases and a rifle to sling on our backs.

"They said at first the quartermaster's wagons would move our bedding and we all lined up in front, but none came. So we started. Some went about 50 feet and stopped, and some did not start at all, but sat down on their packs and waited for relief. I started, but got only a block from barracks. Charley Weber and I were trying to carry our packs between us on a long stick but it would not work. The men were strung out all along the line. Finally a boy in a new Ford came along, and he asked us if we wanted a lift, and we accepted, you bet. He put five Cincinnati fellows on also, and we got away with the biggest load that Henry will ever carry. We got one flat tire on the way but we kept on going until we got to Coates Station our present barracks, two miles from our former one."

It is not nearly so nice, but more convenient to reach from outside. Our address is the same with this added on, as we have risen to the ranks of a "training battalion, second group."

"Sleep upstairs along with about 50 other men. We are only about 75 feet from the carline tracks and road, and the center of all the excitement across the road, is the amusement places and down the road one half block is the car line station.

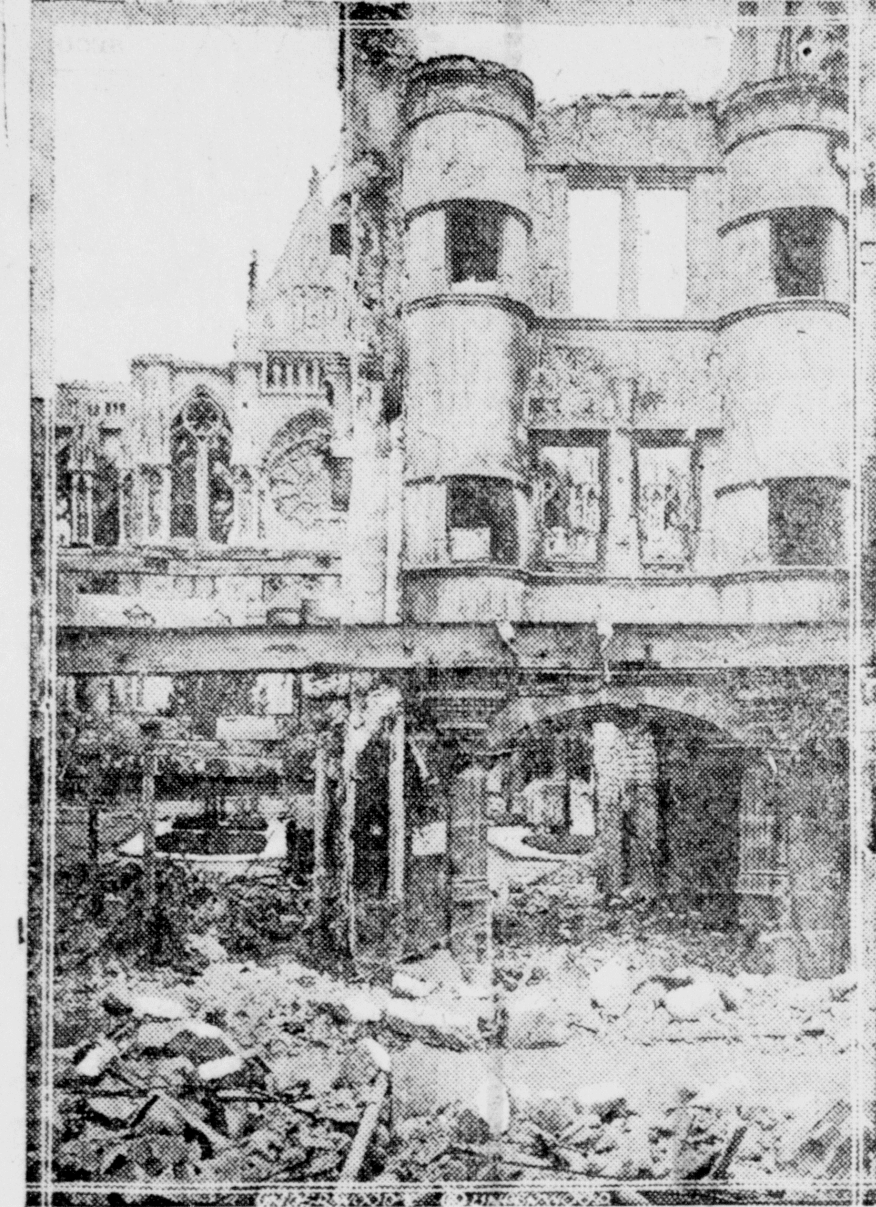

A soldier's life is one of hardship from start to finish but we all get used to it and smile. We all know that the war has to be fought to a finish so we are ready, each one of us, right now, for the big trip over, if it has to be taken, for the U. S. A. I don't know how long we are going to stay at this camp. This is Sunday. We had so much for dinner. Chicken, dressing, mashed potatoes, gravy, tomatoes, canned corn, ice cream, cake, and about the same for supper without the desert.

I am feeling better today after my "shots," and will be feeling like a new man after I receive my third one. If any of you want to come to Louisville, visiting days at the camp are Wednesday afternoons, Saturdays and Sundays. Saturday and Sunday are the best, if I don't happen to be on guard duty. You can take a street car at the L and N station and stop right in front of my barracks. You can see the Indiana foot hills miles away from here. I would give all I possess this night for one good drink of pure Xenia water. The water here tastes like creek water, and is warm all the time. Frank McElroy, a line-man from Mississippi, and I are going to ask for a transfer to the signal corps.

Sorry He Spoke.
"Before I became an author I had more money than brains, but now I have more brains than money," said the speaker at a meeting. "How is it with those who have neither?" Inquired one of the audience. "If the gentleman desires to relate his experience I will cheerfully give way," was the quick response.—Boston Evening Transcript.

BRONCHIAL ASTHMA
Mrs. Graf Says Vinol Cured Her.
Darlington, Pa.—"I suffered from bronchial Asthma so badly I would often have to sit up half of the night or lean over the back of a chair, and so weak I could hardly walk across the floor. I had spent lots of money for different Asthma medicines without help—but Vinol helped me so I sleep well, and am so well and strong I am doing all my work on the farm."
—Mrs. Emma Graf.
Vinol is a constitutional remedy which contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates. We strongly recommend Vinol, Sayre & Hemphill, and druggists everywhere, adv.

NEW GLIMPSE OF RHEIMS CATHEDRAL THRU WALL OF RUINED COURTHOUSE

Wall of wrecked courthouse at Rheims in foreground, with famous cathedral in background.

The magnificent courthouse at Rheims didn't escape the raking shell fire of the Germans in repeated attacks on the city. The picture above shows a wall of the shattered structure and through it can be seen the Rheims cathedral, viewed from a new angle.

FISHERMEN MOURN LOSS OF POLES

Magistrate J. E. Jones and Harry Sohn, the druggist, are minus three fine fishing poles which were stolen from an automobile in which they went fishing along Caesar Creek Tuesday. Two of the poles belonged to Mr. Jones and were worth \$8 and \$10 each. Mr. Sohn's stolen pole was valued at about \$5. H. H. Conklin and James Wead, other members of the party, lost nothing.

Reels and metal bait in the machine were undisturbed. The only things taken were some bananas which were brought along as part of the luncheon. It is thought that the thieves came to Xenia as the cover to one of the poles was found hanging in Caesar Creek bridge on the road to Xenia.

Newtown Colony Brooder

The most economical and efficient brooding device. Positively guaranteed to give satisfactory service. The Newtown is the original coal-burning colony brooder, imitated but never equalled. Built right—priced moderately—the greatest value at the price.
Coal-burning—self-feeding—self-regulating—safe—durable—simple in operation—economical and economical of fuel and labor—raises the chicks.
Don't experiment this year when chicks must be grown in vast numbers. The tried Newtown removes the element of chance in chick raising—makes success sure.

POISON GASSES WILL BE SUBJECT DISCUSSED AT MEETING IN XENIA

Physicians of southwestern Ohio, who attend the conference to be held in the Xenia Business Men's Club rooms, Tuesday, June 18, under the auspices of the Ohio State Medical Association will have an excellent opportunity to secure definite information concerning various poison gasses which are playing an important part in the warfare on the Western Front.

Dr. Charles F. Hoover, who will address the meeting, will devote a portion of his time to a discussion of the medical and surgical phases of the war. He served several months in France with the Lakeside Hospital Unit and had wide experience with victims of German gas.

Dr. Hoover was in France when the Germans first used the now famous chlorine and was in active service when they changed to the more deadly phosgene. The latter is much more dangerous because, according to Dr. Hoover, it is colorless odorless and non-irritating to the upper part of the respiratory tract. The only symptoms are a slight itching about the nose, which is quickly followed by loss of consciousness. Victims are comfortable so long as they lie perfectly quiet in bed, but even sitting up is sufficient to bring on loss of consciousness.

Phosgene is made by combining chlorine and carbon monoxide in the presence of some catalytic agent. It is then put into large shells under three atmospheres pressure and these shells are shot from howitzers into the enemy lines. On striking the shells burst with a loud "pop" like opening a champagne bottle. At first these shells were mistaken for "duds" or ordinary shells that did not ex-

plode, and many men lost their lives investigating these supposedly defective shells. The gas is most effectively used when there is a slight breeze toward the lines of the enemy. A strong wind will carry the gas for as long a distance as twelve miles and non-combatants may suffer.

Dr. Hoover will be able to explain likewise the active properties of the so-called emetic gas, which has the power to penetrate the gas masks worn by the Germans and thereby produces excessive vomiting. The German who inhales this gas has the alternative of smothering in the mask or removing it and exposing himself to the deadly phosgene. He will also explain the action of the "tear" gas which is now being generally used, and the blister gas which will penetrate several thicknesses of woolen cloth and produce blisters without permanently bad results.

Dr. Hoover will likewise explain to

Communicating with the Great. You can, with that brain of yours, go to your library and commune with the innermost heart thoughts of the great men of the past—and what a feast it is!

MILITARY MEN ADDRESS THE MASONIC CLUB

One of the most delightful programs that has ever been given by this club was arranged by the Masonic Club for its party Thursday night, in which four aviators from Wilbur Wright Field at Fairfield were guests of the club.

The four visiting bird-men were Lieut. Bagley of Texas, Bryan of Birmingham, Ala., Lieut. Fuller of New York, and Captain Cafferty of Louisiana. Lieutenant Bagley and Captain Cafferty both made interesting addresses to the club and their speeches were well received. The men also expressed their gratefulness to the club for the invitation to take part in the affair.

Besides the four visitors from the aviation corps, the club enjoyed the company of another military man, Captain C. L. Darlington, of this city, who was the guest of the club and who also delivered an excellent address to the members.

Refreshments of strawberries, ice cream and cake were served. An orchestra, composed of Miss Wilfred Zartman, Dr. A. B. Kester and W. E. Currie, furnished excellent music for the evening.

SPLENDID PROGRAM ARRANGED FOR THE ALUMNI RECEPTION

An interesting program has been arranged for the annual Alumni reception to the graduating class of Central High School, which will be given at the school building this Friday evening.

The affair is one of interest to every Alumnus of the school, and it is expected that a large crowd will be present.

The following graduates will be received into the Association:

President, Lawrence Prugh; Vice President, Marshal Best; Secretary, Grace R. Kiernan, and Treasurer, Helen Whittington, Raymond Stanley Short, Norma Gladys Kneel, Helen Mabel Salisbury, Rosemarie Farrell, Mary Louise Bone, Dorothy Mae Hall, Mary Eleanor Bickett, Samuel Andrew Hutchison, Raymond H. Cherry, Mary Hester Jones, Janet Wallace Ballentyne, Laurence Dean, Barley, Margaret Ann Poland, Mary Marguerite Heaton, Margaret King Galloway, Olive Hannah Huston, David Laurence Purdoh, Marion Marguerite Ralls, Josephine E. Armstrong, Violet Opal Lane, Juanita Mary Rankin, Edith Jeanette Fudge, Lois Esther Mallow, Russel E. Halstead, Blanche Louise Dean, Warren W. Hart, John R. Bales, Anna Leona Keller, Karl Tracy, Dorothy A. Zell, Pearl Arila Haines, Ruth Eleanor Arment, Florence Catherine Kelle, Ruth Elizabeth Barnes, Lena Mildred Bales, William H. Morrison, D. Burdette Armstrong, Eugenia Considine, Edwin Earl Burgess, Mary Lucille Davis, Robert Thomas Moore, John William Purdum, Eugene Dorsey Curlett, John H. Kiernan, Blanche Marie Beals, Eldon Francis McDaniel, Lucia Mae Jenner, Levi Jesse Shambaugh, George Frederick Woodson, Jr.

Jamestown MRS. LELIA SMITH Correspondent

Rev. and Mrs. Hervey Smith spent Wednesday in Xenia.

Mrs. George Cline entertained her Sunday school class on Tuesday evening. Light refreshments were served and about twenty members of the class enjoyed her hospitality.

Sergeant Lawrence Carpenter is home on a ten day's furlough.

Messrs. Glen Perry, Ralph Ferguson, Russell Benigar and Wallace Horn were home over Sunday. They all have good positions in Springfield.

Mrs. R. G. George and daughters, Marion and Helen, were shopping in Dayton on Monday.

Mrs. Lester A. Smith spent the week-end with her brother, L. E. Weed and wife of Dayton.

Mrs. M. H. Klatt spent Monday in Dayton.

Mrs. James Carpenter and Mrs. Walker Benigar were Dayton shoppers Friday.

Mrs. Albert Phifer and grandson, Master Albert Parker, of London, are the guests of Mrs. G. O. Carpenter and family.

Mrs. Gertrude Taylor spent Monday and Tuesday in Columbus, the guest of friends.

Mr. and Mrs. M. H. Klatt spent Sunday in Fairfield, the guests of her parents.

Mrs. Laura Adams, who has been the guest of Mrs. G. R. Bargdill is visiting Mr. Os. Spahr and family of Xenia.

Mrs. Frank Lorimer and children of Xenia are visiting the Rev. W. M. Lorimer and family.

W. M. Lorimer and daughter, Lucile, and Mr. Will McCall and daughter, Mildred will visit Mrs. McCall in Columbus, Thursday.

REAL ESTATE

I AM OFFERING for quick sale an old and established business, which has been in same location for 20 years. If you are looking for a good business opportunity, do not let this get away. Owner has good reasons for selling. Call or see Tom C. Long, Real Estate Man, Gazette bldg., both phones. 5-28wtf

FARMS FOR SALE—One 18 acre farm, 2 story 8 room house and barn, \$2,700. This soil is as fine as silk, no better in Greene Co. Also have a number of other large and small farms. Come and see me. M. N. Douglass, Springfield, Ohio. 6-20

REAL ESTATE AND LOANS—Notes bought. John Harbinc, Jr., Allen Building, Xenia. 6-15

OM C. LONG—Real estate and insurance. Will buy or sell your property, or loan you money. It will pay you to see me. Office 19 South Detroit St. Gazette building. Both phones. 5-28wtf

JOHN W. PRUGH, "The Real Estate Man," will buy or sell your property. Money to loan. Twelve years of successful business. A square deal. Office No. 6 North Detroit St. Both

Twenty Years Ago Today

American Marines are making a gallant stand against the numbers of Spain, General Fitzhugh Lee has been ordered to raise an army of 49,000 soldiers and they will move against the Cuban capital within 30 days.

Harry Sparks has returned from Miami University, Oxford, Ohio. A "blue book" gotten up by him as a souvenir of the three Oxford institutions for 1898, is ingenious and attractive and met with ready sale.

The result of the election for six Alumni trustees of Wooster University last night, showed that the following were elected: Rev. W. E. Work, Dayton, J. W. Knott, Toledo, H. Block, Wheeling, W. Va., C. H. Kyle, Xenia, J. M. Omand, Toledo, C. B. Durstine, Columbus.

G. H. A. G. and F. F. Keyes, of Xenia, took part in the exercises attendant upon the raising of a flag at the plant of the Aetna Powder Works, near Chicago.

J. M. Wilson, promoter of the Dayton, Spring Valley and Wilmington Traction Co., was in the city last night endeavoring to get a franchise into Xenia over Detroit street. The right of way has been obtained excepting the entrance into this city and Dayton and the ordinance granting entrance into the latter city is now ready for the third reading.

NOTICE

The Cedarville and Jamestown pike is positively closed from the crossroads, on Federal pike, to the road at Walter Field's Farm. By order of County Commissioners and township trustees.

Everyday Etiquette

"Is it proper to have butter balls already on the bread and butter plates or is it better to place them on a butter disk," asked Mrs. Newby.

"Have the butter balls in some neat form already on the butter plates before the guests enter the dining room," answered her older friend.

Poor Forms of Bread.

Early records of the north European peoples, particularly in Scandinavia, show that the poor subsisted partly on bread made of nothing more substantial than ground moss. But this had such slight nutritive value that it was almost worthless as a food. Potato flour bread is also a familiar makeshift of other days. When the ground potatoes are mixed with rye or wheat the bread is not unpalatable.

COMING WEDDING OF MISS OLIVE TRADER ANNOUNCED AT PARTY

A very interesting approaching June wedding was announced to a group of young women at the home of Miss Helen Jobe Thursday afternoon, when she entertained for the pleasure of Miss Olive Trader, and gave the date set for Miss Trader's marriage to Mr. Carl O. Nybladh, of Galesburg, Ill.

Fifty young women were Miss Jobe's guests, and they were received by the hostess, with Miss Trader, in rooms fragrant with June flowers, Miss Trader was wearing a lovely and very becoming frock of georgette crepe and froulaid in the raspberry shade.

Luncheon was served in two courses at small tables, each decked with white daisies in little silver vases, and on the reverse of their place cards the guests found written the date for the wedding of Mr. Nybladh and Miss Trader, June 29. While it was no secret to friends of Miss Trader that her marriage was to take place this summer, the date was known only to the very most intimate friends, and the young women guests were very much interested in knowing that her wedding will be a June event.

After luncheon the guests spent their time knitting and chatting. Miss Pauline Shoup and Miss Katherine Shoup, who recently finished at a Washington school where both took high honors for their music, delighted the guests during the afternoon, Miss Katherine singing several numbers, accompanied on the piano by Miss Pauline.

There is an unusually pretty and interesting romance connected with the coming nuptials of Mr. Nybladh and Miss Trader, which friends of the bride like to tell. In the fall of 1915 Miss Trader went to Pana, Ill., to take a position at the head of the English department in the Pana High School. Upon her arrival there she met a Miss Woolfenden, of Madison, Wis., who also had a new position in the Pana schools. The girls became roommates and chums. They met Mr. Nybladh and Harold B. Ray, of Kentucky, who had come to take positions on the faculty of the Pana schools, Mr. Nybladh as head of the economics department. All were strangers in Pana and none had met the other before. They promptly became friends.

From that acquaintance in the Illinois city, two romances resulted. Mr. Ray and Miss Woolfenden were married a year ago last March and are living in Detroit. Mr. Nybladh and Miss Trader, who were engaged at the time, were their only attendants at their wedding. Miss Trader hopes to have Mr. and Mrs. Ray here for her wedding, but as yet it is not certain whether they will come on for the nuptials.

Miss Trader is the only child of Attorney and Mrs. W. P. Trader. She attended Wilson college at Chambersburg, Penn., and took her degree from Antioch in 1913. She taught in the High School at Pana, Ill., until last year when she resigned her position and took one at Lebanon, O., in order to be nearer home. Mr. Nybladh is a University of Chicago man.

Miss Louise Weaver, of Washington, C. H., who is visiting Mrs. Gowdy Williamson, was a guest at Miss Jones party. Mrs. Lehr Fess, Mrs. John Burch and Mrs. William Higgins also came down from Yellow Springs for the party.

Two Famous Dentists.
The first dentist to fill the nerve cavity with gold was Edward Maynard, who was born in Madison, N. J., 104 years ago. Maynard was also the inventor of many of the instruments now used in dental surgery. In 1835 he graduated in dental surgery and settled in Washington, where he practiced for fifty-five years. While Doctor Maynard was experimenting with improved fillings for teeth and inventing new appliances Dr. William T. G. Morton, a Boston dentist, robbed surgery of much of its horror by introducing the use of ether in operations. This was in 1844, a few years after the first dental college in America was founded in Baltimore.

FOOD NOTES

Supplied by Greene County Food Commission

A campaign for the utilization of garbage has been inaugurated by the United States Food Administration to reclaim millions of dollars worth of material now being wasted and to urge upon housekeepers the necessity for keeping garbage (kitchen and table refuse) in a separate container from other house refuse.

Figures and statistics issued by the Food Administration show that in one ton of garbage there is sufficient glycerine to make the explosive charge for fourteen 75 millimeter shells, enough "fatty acid" to manufacture 75 pounds of soap, fertilizer elements to grow eight bushels of wheat and a score of other valuable materials essential in the manufacture of munitions.

It is also pointed out that 24 cities of over 100,000 are not utilizing garbage and that the combined population, which is estimated to be over 5,000,000 is wasting 4,400,000 pounds of nitro glycerine and 40,000,000 twelve ounce cakes of soap besides 60,000 tons of tangle which contains fertilizer elements sufficient to produce a three million bushel wheat crop. The value of this loss of materials is estimated at \$5,000,000.

In 29 cities where there are garbage utilization plants the figures show that a combined population of 18,000,000 people are utilizing these products, to the value of over \$11,000,000 annually, and that a large percentage of this saving is being directly used by the government in munition making. Plans are under way in several cities for the manufacture of alcohol on a large scale from garbage and from experiments it has been shown that the grade of alcohol produced equals a high grade grain product.

But in these 29 cities, or most of them, large amounts of garbage are destroyed by burning or made useless by being mixed with other wastes. This means that around 9,000,000 pounds of grease is lost, or sufficient to produce 1,300,000 pounds of nitro-glycerine which would furnish the powder charge of about 2,000,000 shells of the famous French "seventy-fives." In addition there is a loss of fatty acids sufficient to manufacture 25,000,000 twelve-ounce cakes of soap. The fertilizer waste amounts to 1,250,000 pounds of nitrogen, 3,500,000 pounds of phosphate of lime, and 350,000 pounds of potash, or enough for the replacement of the elements removed from the soil by a million bushels of wheat. In other words, a waste of 22,500 tons of fertilizer.

If, in these 29 cities the garbage was "kept clean" or free from bottles, tin cans, crockery and other foreign matter, the saving to the government would be many million dollars more. The responsibility devolves upon the shoulders of the housewife who is urged to see that nothing but garbage goes into the garbage pail. Other house refuse has a value but its value is lost and the value of the garbage is lost if refuse and garbage are mixed.

GOOD HOUSEKEEPERS USE BEST.
That's why they use Red Cross Ball Blue. All leading grocers, 5 cents.

Letters From Our Soldiers

Letters for this column from Greene county's soldiers are solicited. No matter whether the letter is from a soldier in the training camp or from the battle trenches it is of interest, not only to his close friends but to the general public. Therefore if you receive a letter from a soldier and it contains interesting news pass it along to the newspaper and we will publish it so all his friends may enjoy it. Soldiers are also invited to write directly to the newspaper.

E. GLEESON MCARTY IS IN THE ARMY

The following letter was recently received from Private E. Gleeson McCarty by a Xenia friend. It is as follows:

It is altogether possible, in these very strenuous war times that you good people of Xenia, have all but forgotten E. Gleeson McCarty, erstwhile director of amateur theatricals, but now on the muster roll of his revered relative, Uncle Samuel. If such is the case, here is a slight reminder that I am still among the living and just as far from a casualty list as it is possible to be.

Two weeks ago, I came to the colossal Khaki city of Camp Sherman and had the self same experience that every other member of the Selective Draft has had, except that on the day after my arrival, I was summoned to the office of Captain Davis, the camp adjutant and was detailed on camp theatricals. Since that time I have been doing practically the same sort of work that I was doing and which I enjoy so thoroughly. Of course, so far, it has been mostly preparatory but in a few weeks we expect to be giving the boys some real minstrel shows and musical comedies.

Have not met any of the Xenia boys as yet, but hope to run across some of them in the near future. If the Selects at Camp Taylor are sent up here, I will probably be directing some of my former Xenia "stars" before long.

Had some of my young dancers seen me trying to master the intricacies of the drill movements, the first couple of days, am sure they would have had a good laugh at my expense. However, I am steadily improving and am now able to go thru the routine without getting the entire squad out of cadence. Can also salute even the very highest officers, now, without having an acute attack of palsy or St. Vitus' dance.

I like army life fine, and while I never expect to have my name go down in history, as a great commander or anything of that sort, it is really a great satisfaction to feel that I am one of several millions, doing my bit. One of my friends in Xenia has sent me several clippings from the Gazette and it has made me think of the

many good times I have had in that Home of Hospitality.

Am attached to the 15th Company, 4th Training Battalion and am living at barracks R-33, but spend most of my time at the Y. M. C. A. Auditorium, at which place all the theatrical work is handled.

Letters are more than welcome here so tell all my friends to drop me a line now and then for I'm always anxious to know what goes on in Xenia.

E. GLEESON MCARTY,
Y. M. C. A. Auditorium, Camp Sherman, Ohio.

PARENTS DAY IN TOWNSHIP CHURCHES

Sunday, June 16, will be Parents' Day in the churches of Beaver Creek charge.

Sunday school in Beaver Church on Sunday morning at 10:30 and public worship at 11:30, with a special message to parents.

Sunday school at Mt. Zion at 1:30 p. m., and public worship at 2:30, with a special sermon to parents.

Every parent within reach of these churches ought to attend one of these services. When you read this go to the phone and invite some one who you think will not be present without an invitation.

Usually to His Sorrow.
"Many a man," said Uncle Eben, "monkeys wif de buzz saw when he ought to be choppin' firewood."

LET US GRIND YOUR VALVES

LEAKY VALVES are the most common cause of loss of power—but the easiest to remedy. Such a condition indicates no fault of design. It will occur in any car where the valves are neglected.

Carbon deposit is the thing that makes the trouble. This is due to the poor fuel we are now getting, and to inferior grades of lubricating oils.

If you want satisfactory service you MUST have your valves ground frequently. It is not expensive and will always repay you many times its cost in increased power.

We are very careful valve grinders. We do this work in an exact manner and make every valve "seat" perfectly, so that no combustion leak is possible.

Come in and see us—we'd like to talk this over with you.
